

## **SUNSET COURT STORM WATER**

### **LISTENING SESSION FOR ADJACENT OWNERS**

The City of Madison is proposing storm water improvements leading to and exiting the Sunset Park open channel in 2016. As part of the preliminary design, Engineering will hold a listening session with the adjacent property owners to gain input. The meeting is open to all interested parties but this notice is only being sent directly to adjacent owners to the current storm sewer system from Westmorland Blvd to the open channel on W Sunset Court. The meeting will be a “walking” on-site visit to discuss the existing system and needed improvements. Please bring chairs as needed.

Residents will have an opportunity to provide input and help lead design improvements for the storm sewer system.

If you have questions or concerns related to this meeting, you may contact Eric Dundee, of the City of Madison Engineering Division.

**Eric Dundee ▪ (608)266-4913 ▪ edundee@cityofmadison.com**

**Thursday, June 18 @ 6:00-7:30 P.M.  
On-site at corner of N Sunset Ct & E Sunset Ct**
